

World Conference on
Forensic Science and Research
November 11–13, 2026 | Osaka, Japan

PROGRAM LIST

PLENARY SPEAKERS				
Speaker	Title	Designation	Institution	Country
Angela Gallop	Innovations in Forensic Science: From Crime Scene Examination to Courtroom Evidence Presentation	Founder & Chief Executive Officer	Forensic Access	United Kingdom
Claude Roux	The Future of Forensic Intelligence: Integrating Science, Data Analytics, and Criminal Investigation	Professor of Forensic Science	University of Technology Sydney	Australia
Shanlin Fu	Emerging Technologies in Forensic Genetics and Human Identification for Criminal Investigations	Professor	Xi'an Jiaotong University	China
Valérie Delpla	Advancing Forensic Laboratory Sciences Through Innovative Analytical and Investigative Approaches	Senior Forensic Scientist	Institut National de Police Scientifique	France
Marcos Almeida	Forensic Investigations in Combating Organized Crime, Cybercrime, and Transnational Criminal Networks	Senior Forensic Expert	Federal Police of Brazil	Brazil
Yvonne Birks	Evidence-Based Research Methodologies and Their Applications in Forensic and Criminal Justice Sciences	Professor	University of York	United Kingdom

Pierre Margot	Forensic Intelligence and Decision-Making: Transforming Crime Investigation Through Scientific Innovation	Professor Emeritus	University of Lausanne	Switzerland
Paola Ricci	Advances in Forensic DNA Analysis, Human Identification, and Population Genetics Research	Professor	Sapienza University of Rome	Italy
Antonio Alonso	Next-Generation DNA Technologies and International Standards in Forensic Human Identification	Director & Senior Scientist	National Institute of Toxicology and Forensic Sciences	Spain
Yoshinori Iwata	Artificial Intelligence, Digital Forensics, and Emerging Technologies in Modern Criminal Investigations	Professor	Kyushu University	Japan

Speaker Slots Available

KEYNOTE SPEAKERS

Speaker	Title	Designation	Institution	Country
John M. Butler	Advances in Forensic DNA Analysis, STR Technologies, and Human Identification in Modern Criminal Investigations	Research Scientist & Professor	National Institute of Standards and Technology	USA
Lisa Austin	Ethics, Privacy, and Legal Challenges in Digital Evidence and Forensic Investigations	Associate Professor	University of Toronto	Canada
Stanley Fisch	Innovative Approaches to Forensic Education, Criminal Justice, and Scientific Evidence Interpretation	Professor	University of Texas Rio Grande Valley	USA
Gordan Lauc	Biomarker Research, Forensic Genomics, and Emerging Applications of Glycomics in Human Identification	Professor	University of Zagreb	Croatia
Helle Smidt Mogensen	Advances in Forensic Genetics, DNA Profiling, and Next-Generation Sequencing Technologies	Professor	University of Copenhagen	Denmark
Marina Baldi	Forensic Anthropology, Human Remains Identification, and Disaster Victim Investigation	Professor	University of Florence	Italy
Mohd Shah Mahmud	Digital Forensics, Cybercrime Investigation, and Emerging Technologies in Criminal Justice	Professor	Universiti Sains Malaysia	Malaysia

Carlos Palacios	Forensic Chemistry, Crime Scene Investigation, and Scientific Evidence Analysis	Professor	National Autonomous University of Mexico	Mexico
James S. Metcalf	Forensic Toxicology, Environmental Forensics, and Analytical Methods in Criminal Investigations	Professor	University of Auckland	New Zealand
Torleiv Ole Rognum	Forensic Pathology, Death Investigation, and Medicolegal Practices in Modern Forensic Science	Professor Emeritus	University of Oslo	Norway
Mohammed Al-Harthy	Emerging Trends in Forensic Medicine, Toxicology, and Medicolegal Investigations	Senior Consultant	Ministry of Health Oman	Oman
Wojciech Branicki	Forensic Genetics, Population Genomics, and Human Identification Through Advanced DNA Technologies	Professor	Jagiellonian University Medical College	Poland
Abdul Latif Al Khal	Forensic Medicine, Public Health Investigations, and Clinical Applications in Criminal Justice Systems	Senior Consultant & Research Leader	Hamad Medical Corporation	Qatar

Speaker Slots Available

Varsha **FEATURED SPEAKERS**

Speaker	Title	Designation	Institution	Country
Evangelia Sarandi	Advanced Applications of Molecular Biology and Genomic Technologies in Forensic Human Identification and Criminal Investigations	Assistant Professor	University of Crete	Greece
Varsha Warriar	Emerging Trends in Digital Forensics, Cybercrime Investigation, and Artificial Intelligence Applications in Criminal Justice	Lecturer & Researcher	University of Derby	United Kingdom
Laura Pietras	Innovations in Forensic Pathology, Clinical Diagnostics, and Medicolegal Investigation Practices	Research Scientist	University Medical Centre Hamburg-Eppendorf	Germany
Eun Young Lee	Next-Generation Forensic DNA Technologies and Their Applications in Human Identification	Associate Professor	Yonsei University	South Korea
Abdulla Al Kuwari	Advances in Forensic Genetics, Population Genomics, and DNA Profiling for Criminal Investigations	Assistant Professor	Qatar University	Qatar

Michał Banaszkiewicz	Modern Approaches to Forensic Medicine, Death Investigation, and Medicolegal Evidence Interpretation	Assistant Professor	Medical University of Warsaw	Poland
Ethan Tan Wei Ming	Artificial Intelligence and Machine Learning Applications in Digital Forensics and Cybercrime Investigation	PhD Research Scholar	National University of Singapore	Singapore
Ji Hyun Park	Emerging Technologies in Digital Evidence Analysis and Cybersecurity Investigations	Research Fellow	Korea University	South Korea
Alejandro García Martínez	Advanced DNA Profiling Technologies and Human Identification in Modern Forensic Science	PhD Research Scholar	University of Granada	Spain
Anne Rogde	Forensic Pathology, Human Rights Investigations, and International Standards in Medicolegal Practice	Professor	University of Oslo	Norway
Nattapon Wongchai	Advanced Forensic DNA Technologies for Human Identification and Criminal Investigation Applications	PhD Research Scholar	Mahidol University	Thailand
Erik Andersson	Advances in Forensic Genetics, Genomic Analysis, and Next-Generation Sequencing Technologies	PhD Research Scholar	Karolinska Institutet	Sweden
Speaker Slots Available				
Greenwich Mean Time (+00:00)				
Note: This is a primary program slight changes may happen in the final Program
