

World Conference on
Digital Health & Telemedicine

May 17-19, 2027 | Osaka, Japan

BROCHURE

Welcome Message

Dear Colleagues,

We are delighted to welcome researchers, scientists, academicians, Digital Health & Telemedicine practitioners, professionals, and industry experts from around the world to the World Conference on Digital Health & Telemedicine (WCDHT-2027).

This conference provides a global platform to exchange knowledge, present research findings, and foster collaborations that advance Digital Health & Telemedicine.

About the Conference

The KINGLOB MEET cordially invites researchers, clinicians, healthcare professionals, digital health innovators, academicians, industry experts, policymakers, and students from around the world to attend the World Conference on Digital Health & Telemedicine (WCDHT-2027), taking place on May 17–19, 2027, in Osaka, Japan. The conference aims to advance healthcare through digital transformation by bringing together global experts to discuss the latest innovations in digital health, telemedicine, artificial intelligence, remote patient care, and connected healthcare systems. WCDHT-2027 will provide an international platform for presenting cutting-edge research, sharing best practices, and fostering interdisciplinary collaborations to improve healthcare accessibility, quality, and patient outcomes. The scientific program will feature keynote lectures, plenary sessions, technical presentations, workshops, poster sessions, and networking opportunities. Major topics include Telemedicine, Artificial Intelligence in Healthcare, Digital Therapeutics, Mobile Health (mHealth), Wearable Technologies, Remote Patient Monitoring, Electronic Health Records, Healthcare Data Analytics, Precision Medicine, Internet of Medical Things (IoMT), Cybersecurity in Healthcare, Smart Hospitals, and Digital Health Policy. Join us in Osaka for three inspiring days of scientific excellence, innovation, collaboration, and professional networking dedicated to shaping the future of digital healthcare.
